# Standard Truckload Transit Time Estimator

|                      |   |                              |
|----------------------|---|------------------------------|
| Under 400 miles      | = | Same day or next day service |
| 400 to 600 miles     | = | Next day service             |
| 600 to 1,200 miles   | = | 2-day service                |
| 1,200 to 1,800 miles | = | 3-day service                |
| 1,800 to 2,400 miles | = | 4-day service                |
| 2,400 to 3,000 miles | = | 5-day service                |
| 3,000 to 3,600 miles | = | 6-day service                |

This resource is intended to be used as a general guide. The transit times listed here are estimates for standard (non-expedite) truckload shipments.

Actual transit times fluctuate based on location, weather conditions, traffic congestion, operational hours of shipper and consignee, and other factors.
